

Colloquium

Department of Physics, Temple University

Student Progress Reports

Kazi Tawhid-Al-Islam

Breaking and cure rouleaux with a strong magnetic field

Narendra Acharya

**Fabrication of ultrathin MgB₂ films from hybrid physical
chemical vapor deposition (HPCVD)**

Benjamin Agyare

Intrinsically localized lattice vibrations in crystalline lattices

Amani Kraishan

**Measurement of the longitudinal single-spin asymmetry
at forward rapidity for W boson production
in polarized proton-proton collisions**

Monday, December 1, 2014 at 3:00pm

Barton Hall, Room BA 140

Refreshments served at 2:45pm
