

Colloquium

Department of Physics, Temple University

Student Progress Reports

Xinhua Pan

Optical control and spectroscopic studies of collisional population transfer in molecular electronic states

Aydin Sanli

Transition Dipole Moment Study of Sodium Dimer Ion-Pair

Reginald Fisher

The detection of Ions in laser filament

Steven Moore

Low-temperature STM Measurements of Granular Pb films

Monday, February 2, 2015 at 3:00pm

SERC #110A

Refreshments served at 2:45pm
