

Colloquium

Department of Physics, Temple University

Student Progress Reports

Pratikkumar Dhuvad

Properties of organic ferroelectrics

Amani Kraishan

Measurement of longitudinal single-spin asymmetries
for W-boson production at forward pseudorapidity
in polarized p+p collisions at STAR

Abhirup Patra

Some aspects of self-interaction error in density functional theory:
molecular adsorption and phase transition

Kazi Tawhid-Al-Islam

Interaction between magnetic field and red blood cells

Monday, August 28, 2017 at 3:00pm

SERC, Room 116

Refreshments served at 2:45pm
