

Colloquium

Department of Physics, Temple University

Student Progress Reports

Benjamin Agyare

Intrinsically localized lattice vibrations in crystalline lattices

Huta Banjade

Computational and data-driven design of two-dimensional compounds

Samuel Kim

**Reduction of backgrounds in a high-purity germanium
gamma ray detector due to naturally occurring and cosmic-ray
produced radionuclides**

Wenura Withanage

Superconducting MgB₂ coatings on inner walls of Cu tubes

Monday, September 25, 2017 at 3:00pm

SERC, Room 116

Refreshments served at 2:45pm
