

Colloquium

Department of Physics, Temple University

Student Progress Reports

Benjamin Agyare

Localized lattice vibrations in crystalline lattices

Andrew Watson

Transverse position reconstruction in DarkSide-50

Weibing Yang

**Probing metal-insulator transition at the $\text{EuNiO}_3/\text{LaNiO}_3$
interface with standing-wave photoemission**

Lixin Zheng

**The hydrogen bond properties of liquid water
by accurate ab initio SCAN density functional**

Monday, November 7, 2016 at 3:00pm

SERC, Room 116

Refreshments served at 2:45pm
