

Colloquium

Department of Physics, Temple University

Student Progress Reports

Giabao Hoang

Studying transversity through dihadron production

Leila Kasaei

**Fabricating Josephson Junction in pnictide thin film
using Focused Ion Beam**

Mannix Shinn

**Measurements of the domain magnetization direction
and its effects on the sensitivity of magneto-optic field sensors**

Dan Trainer

**Growth and Scanning Tunneling Microscopy Characterization
of Quasi-2D MoS₂**

Monday, March 21, 2016 at 3:00pm

SERC, Room 116

Refreshments served at 2:45pm
